## *Modesto, USA* Is all about You!

Modesto USA is A Classic American City. No other city has a brand that fits so all-around perfectly. Why? Because we are that small town feeling of community, friends and neighbors wrapped with the amazing American Graffiti history and legends blended with the arts, entertainment, dining and culture of great American cities.

The reason we are so special is our people. Anyone that has called Modesto home has created our legends. Some have gone off and become massively famous, some stay here in Modesto and make a huge public difference and most work hard day after day to make contributions that go unnoticed, but are as equally important as all of the well-

known things. It all goes hand in hand and every person in our amazing city makes a difference. This month we turn the pages of ModestoView over to you, the people of Modesto. What do we like? What do we want to do differently? The people that create our music, roads, restaurants, schools, families, businesses and events are the stars of Modesto.

Modesto USA is lucky to have so many stars that shine so bright and in so many ways and it all connects together in what we call Modesto Ana. Thanks to each and every one of you and enjoy Modesto, USA- A Classic American City.

Tell us what you like about Modesto!

Since 2000, XFest has been the huge summer party for Modesto. Our downtown streets have been home to over 100 stages, over 600 bands and nearly 200,000 party goers. August 6, at 5:00 pm, the gates will open on the 2012 XFest, featuring huge performances by Panic at the Disco, Moonshine Bandits, DAM, Y&T, Jerimiah and so many more. 10 Stages, 50 bands and 15,000 of your closest friends will celebrate music and fun.

Lots of exciting new news as we roll up to show time Aug 6. There are new stages loaded with local bands like Lovecore, Hickory, Dandelion Massacre and more and by Aug 6, there will be a comedy stage as well. XFest

will truly have something for everyone whether you want to eat, drink, dance or just listen and soak up the scene.

Key things to plan: Car pool, drink lots of water, park a few blocks away from XFest and walk. Bring your camera, your party attitude, and make sure XFest is a fun and safe night. Make it easy and get there early when the lines are short and just find a good place to hang. You will not regret it. Send us your fave XFest pics after the show and we will post them in ModestoView.com and use the best ones in our special XFest Rear View Mirror. Most importantly, stay safe and have a blast at XFest.
